HOW-TO GUIDE

Put The Sale Pen on your iPhone.

Add our marketplace to your Home Screen so it opens like an app: full screen, no address bar, one tap away.

- Takes less than a minute
- Nothing to download from the App Store
- 7 quick steps in Safari

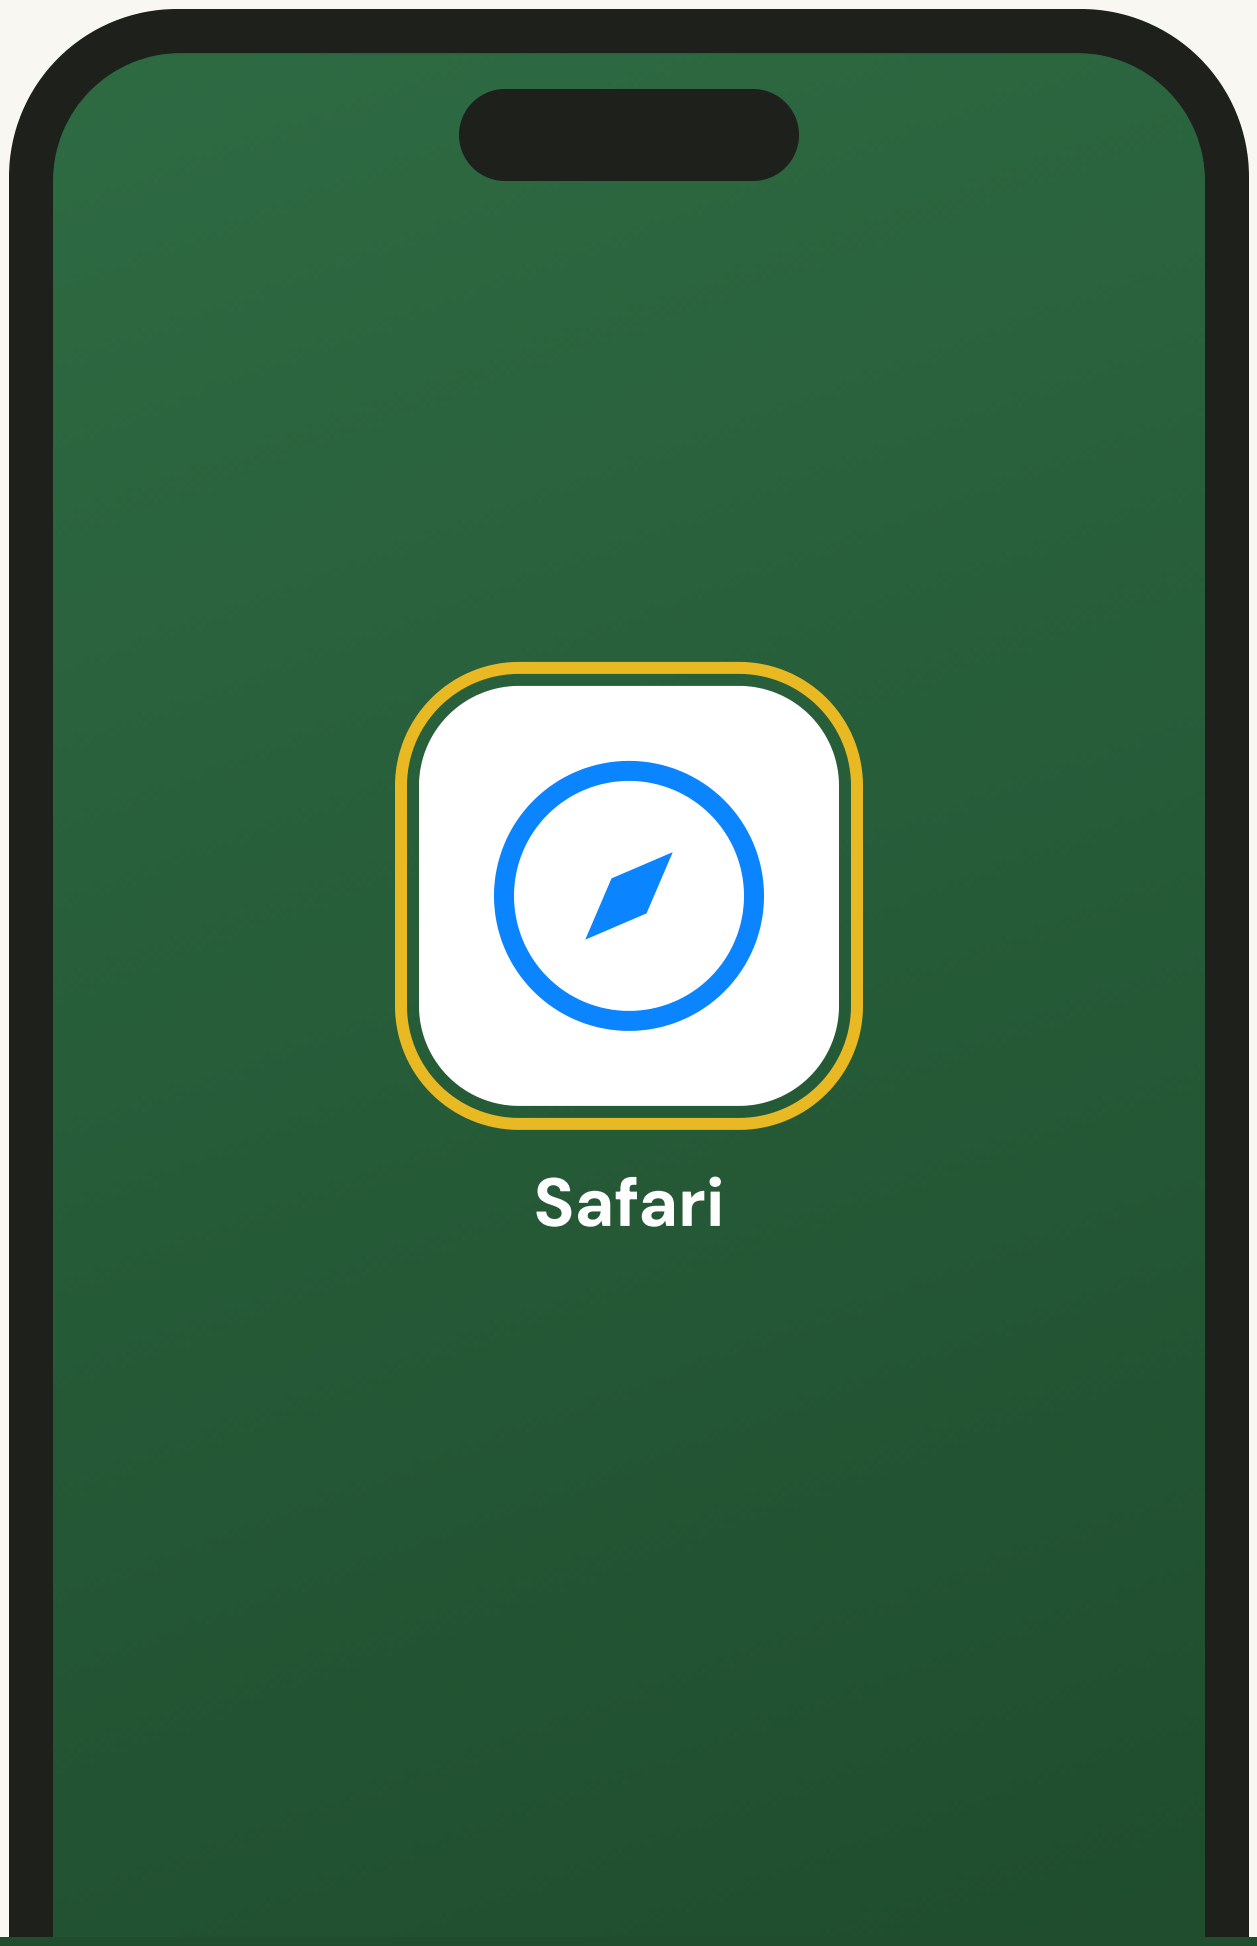

1

Open Safari.

Start in Safari, the built-in web browser on your iPhone.

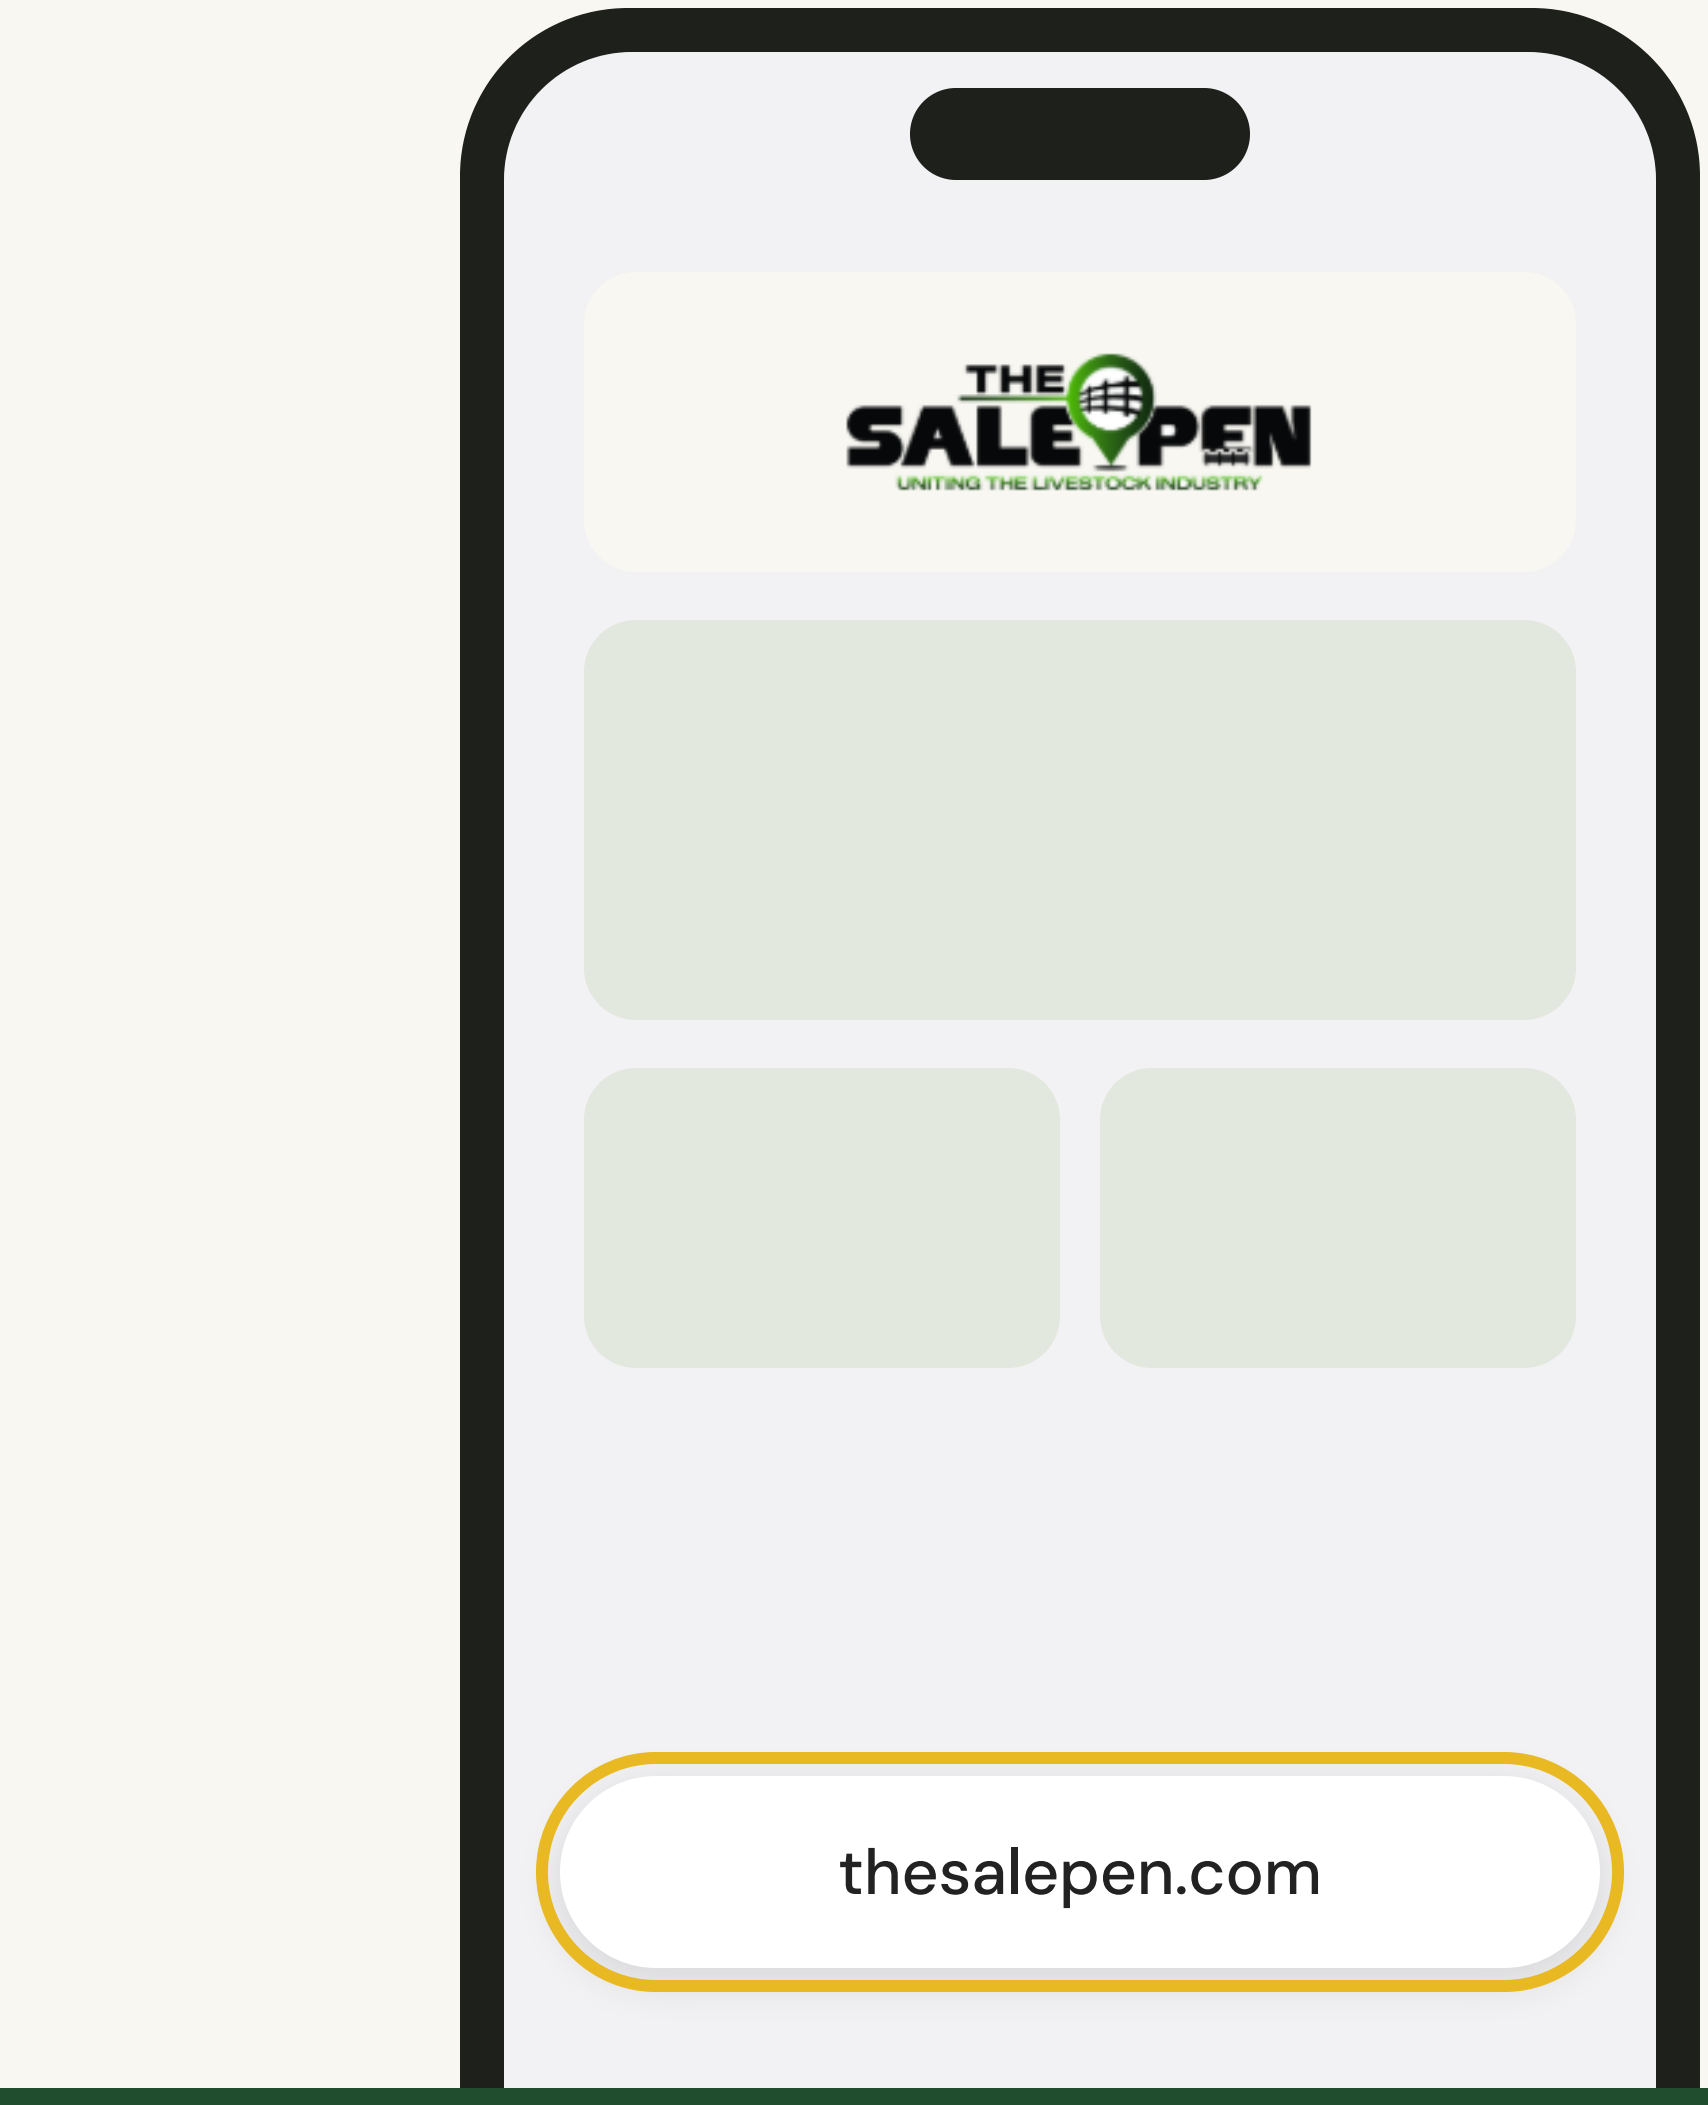

Opened our link in Instagram or Facebook? Tap the menu in that app and choose to open the page in your browser first.

2

Go to thesalepen.com.

Type our address into the search bar and open the site.

3

Tap the Share button.

It's the square with an arrow pointing up.

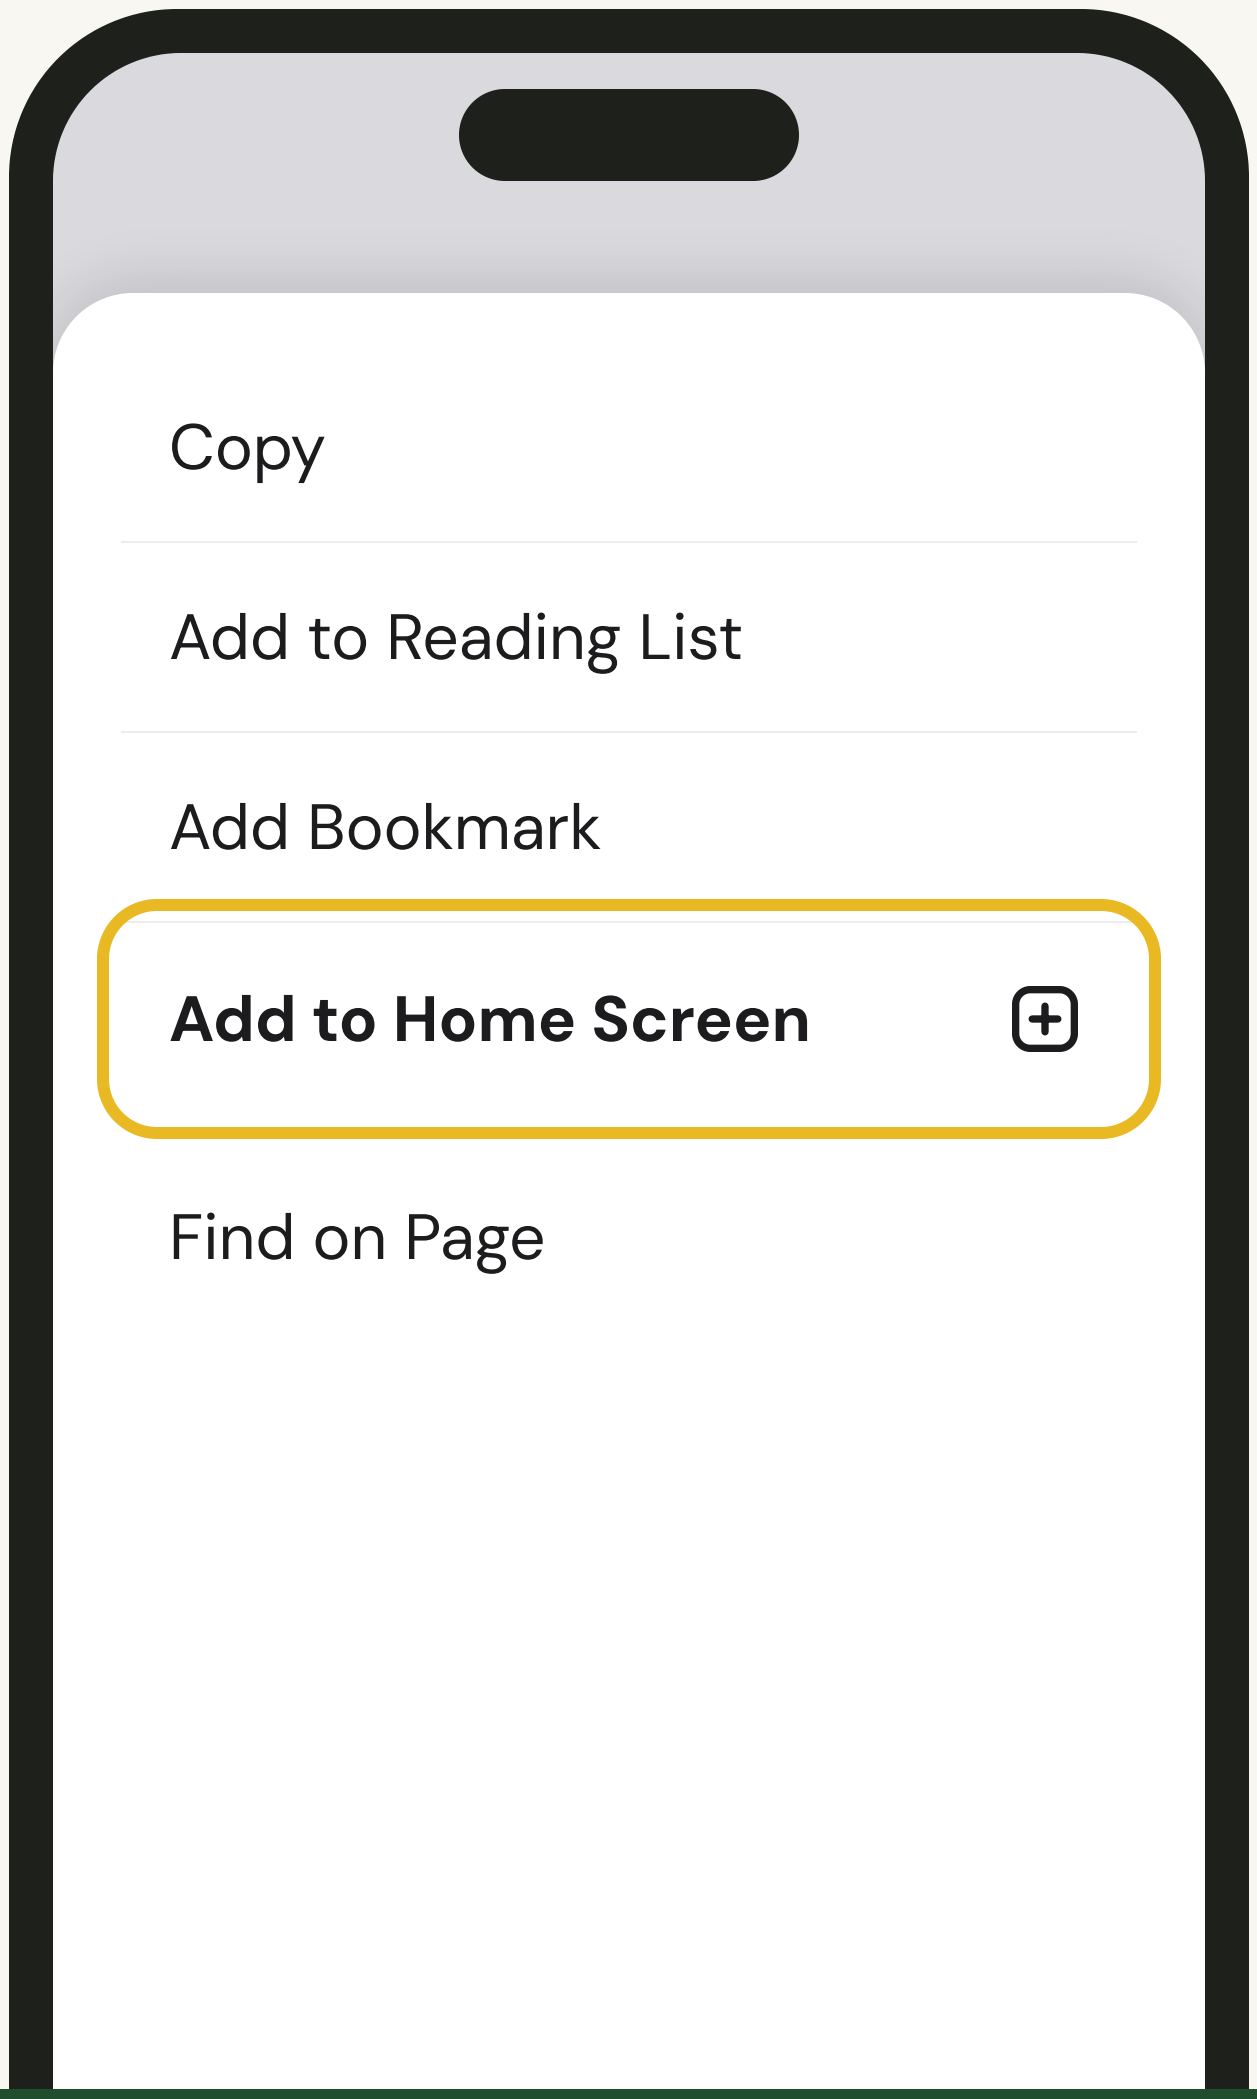

Don't see it? Tap the three dots **(•••)** next to the address bar first, then tap Share.

4

Tap Add to Home Screen.

Scroll down the list of options until you find it.

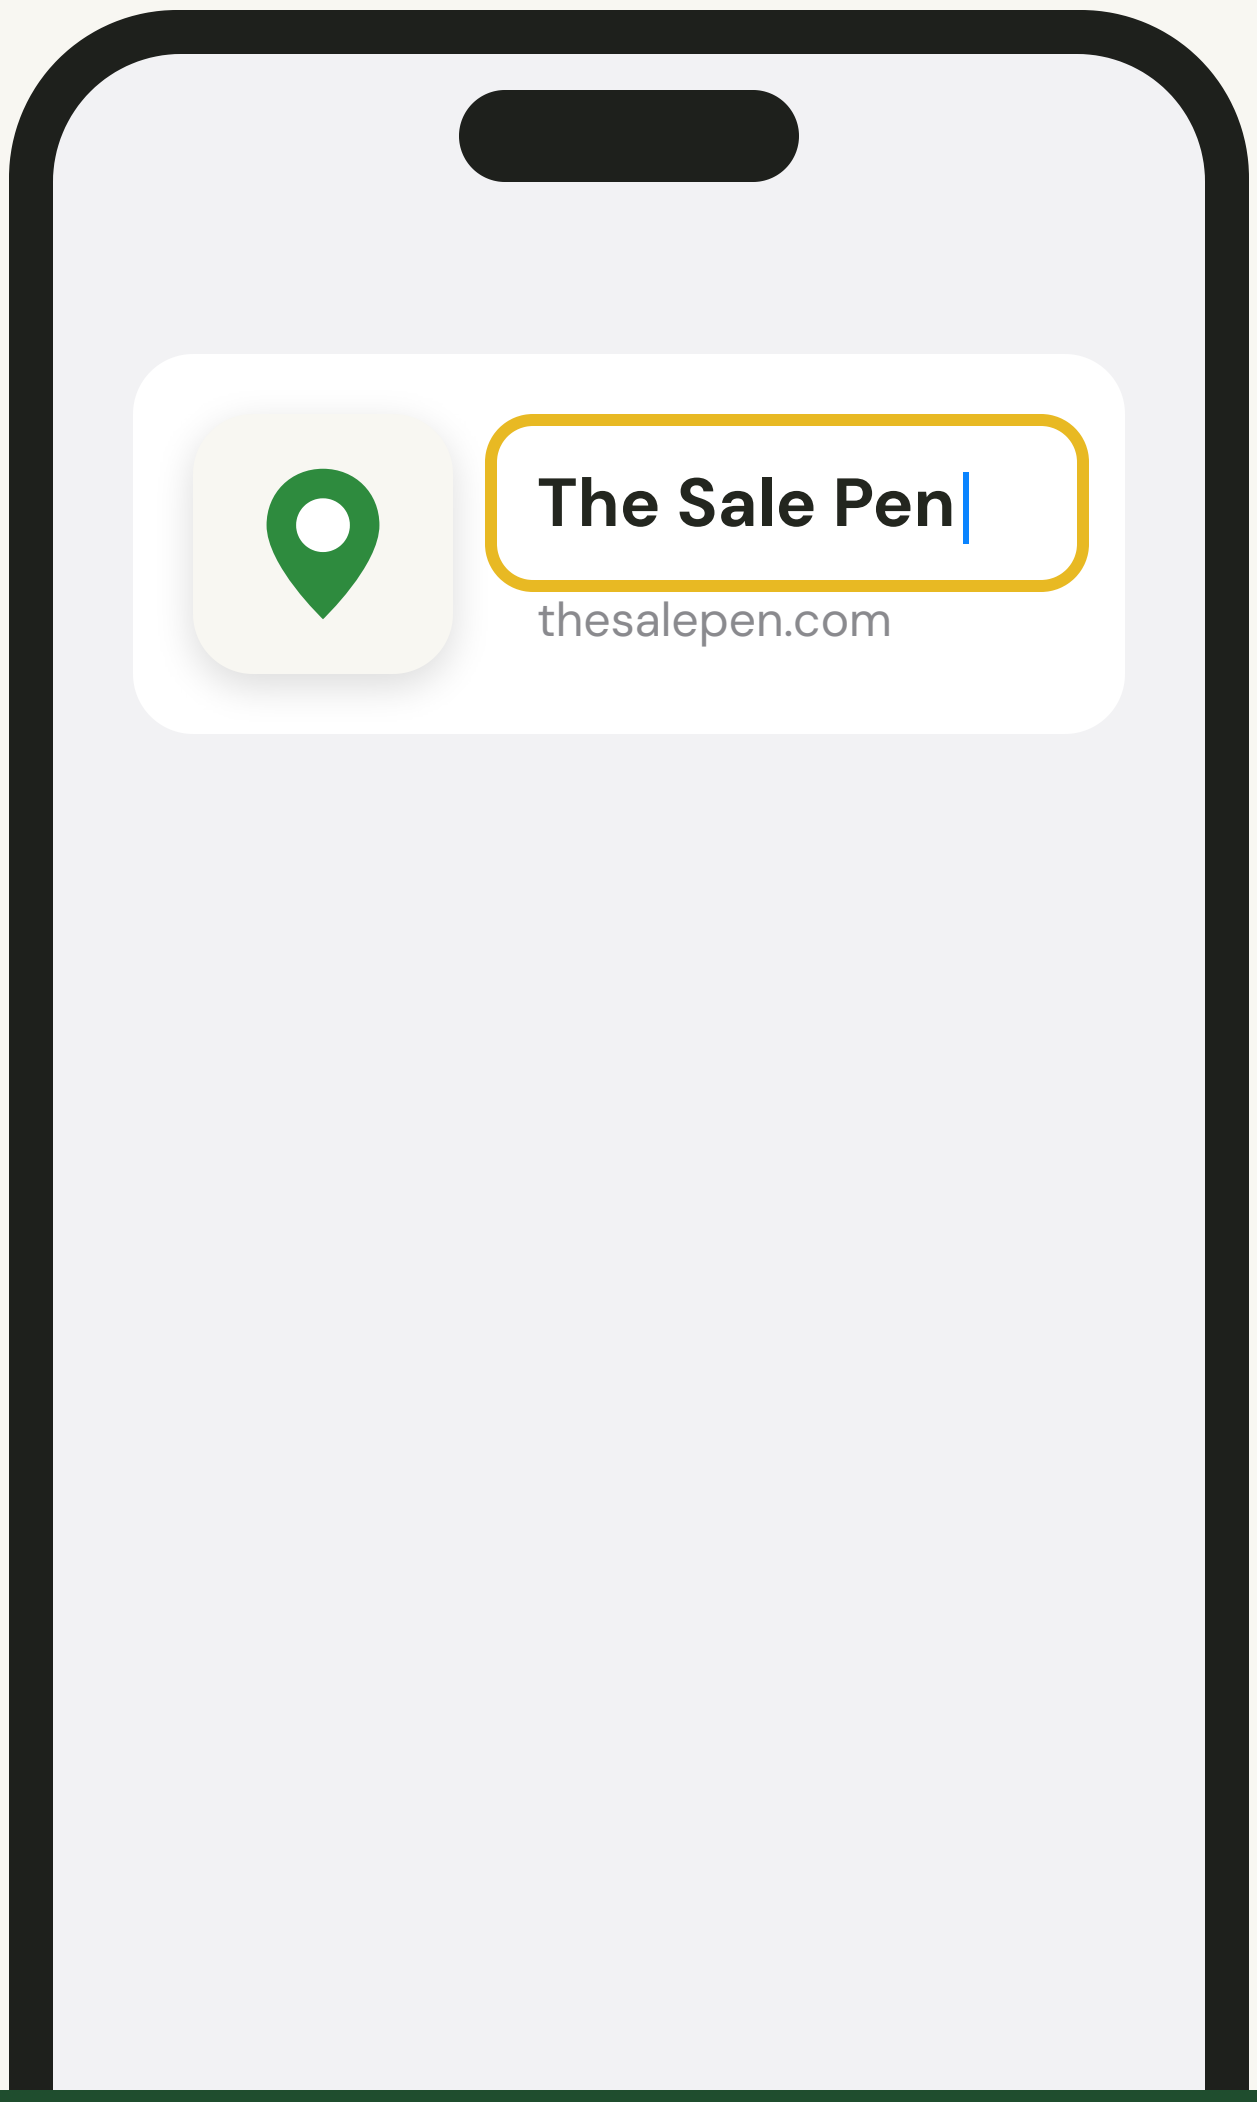

STEP 5 OF 7

5

Name your app icon.

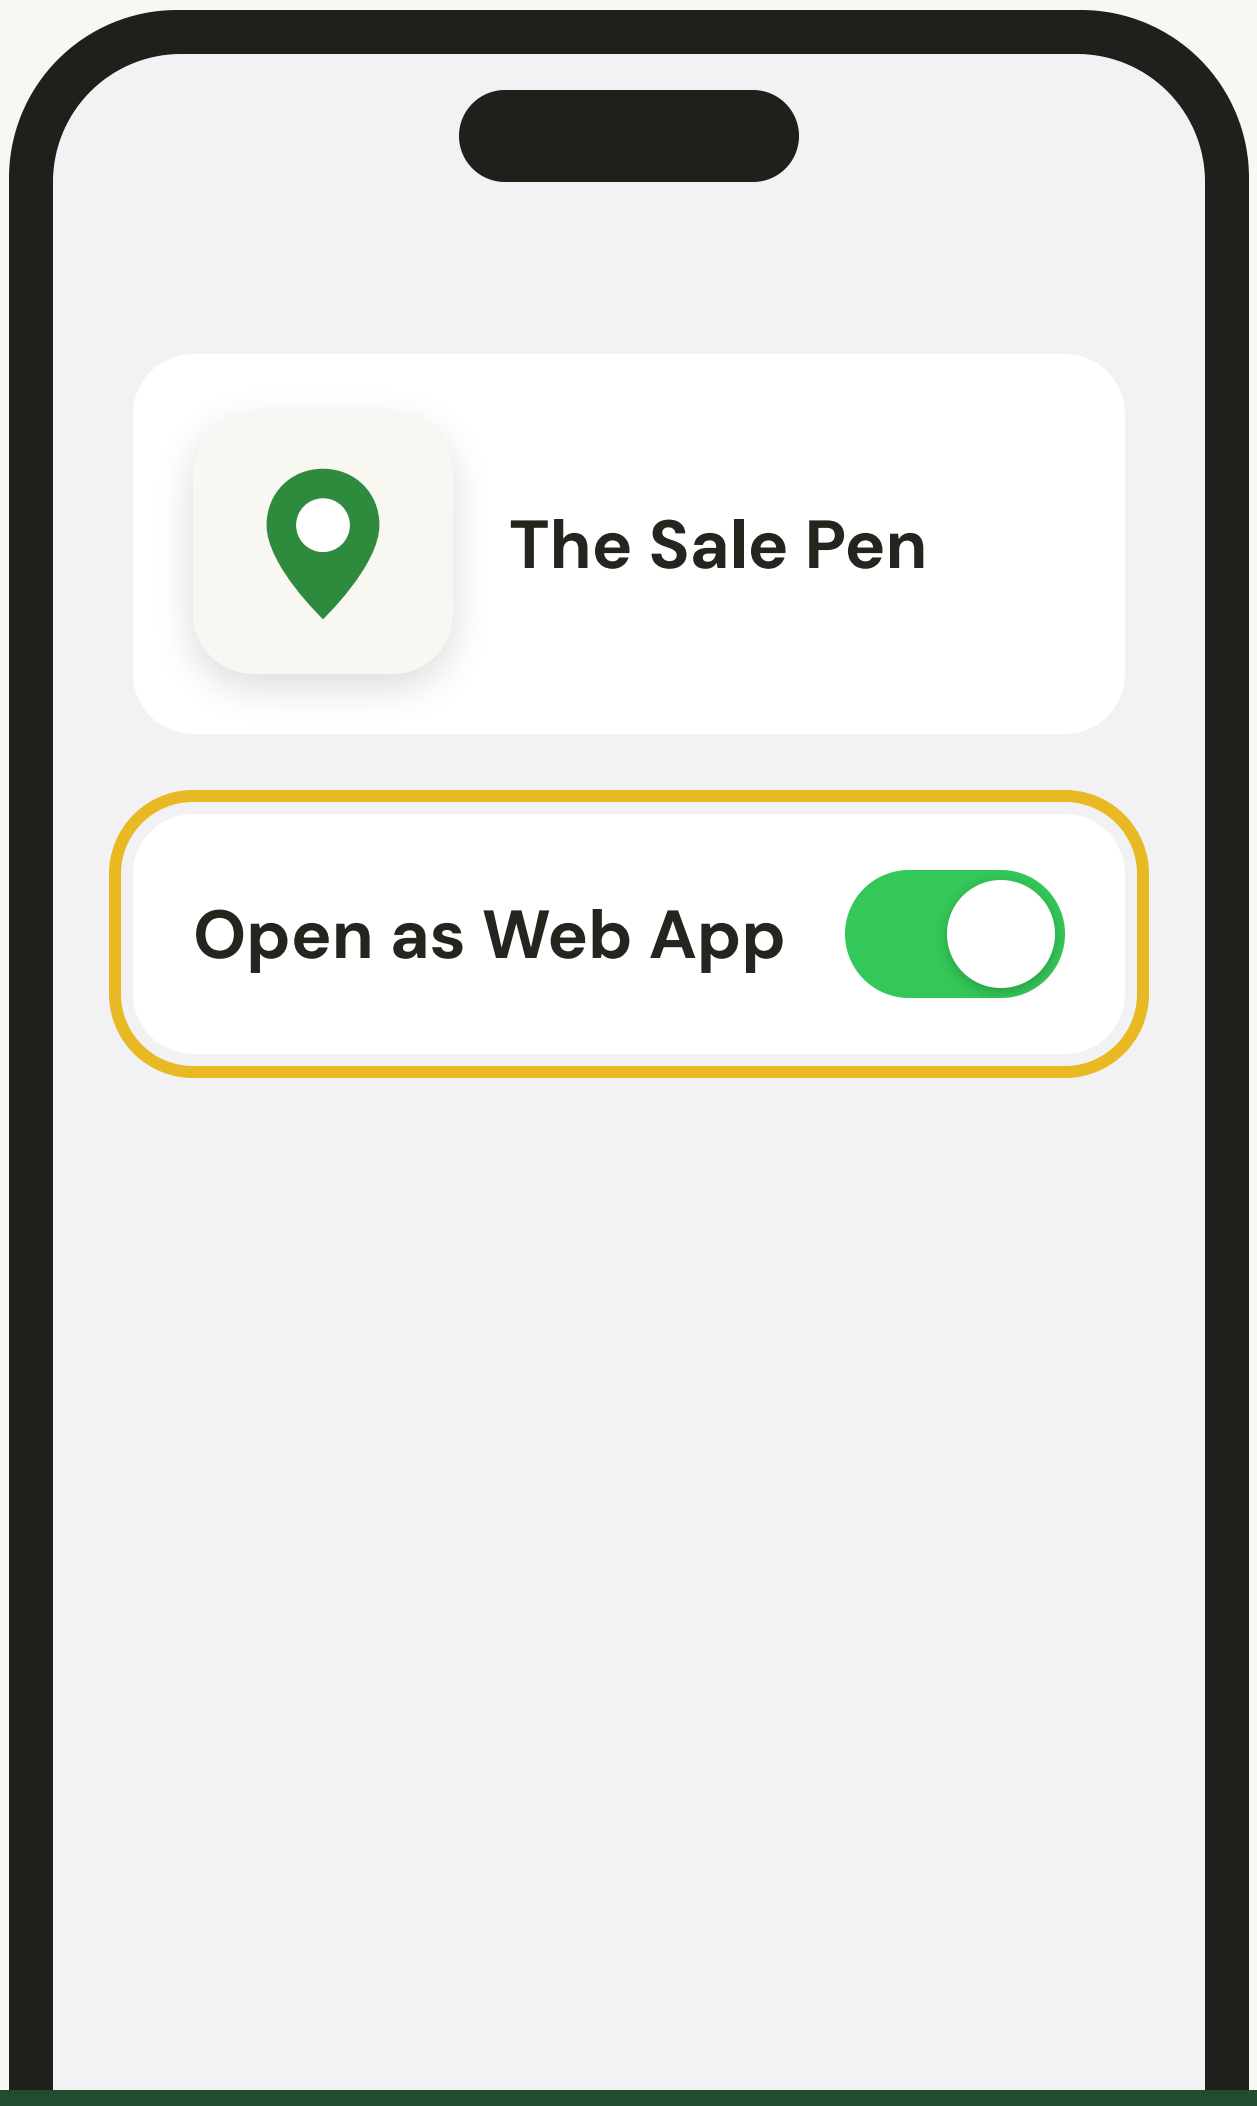

We recommend **The Sale Pen**, so it's easy to find on your Home Screen.

6

Turn on Open as Web App.

This makes The Sale Pen open on its own, full screen, instead of as a normal browser tab.

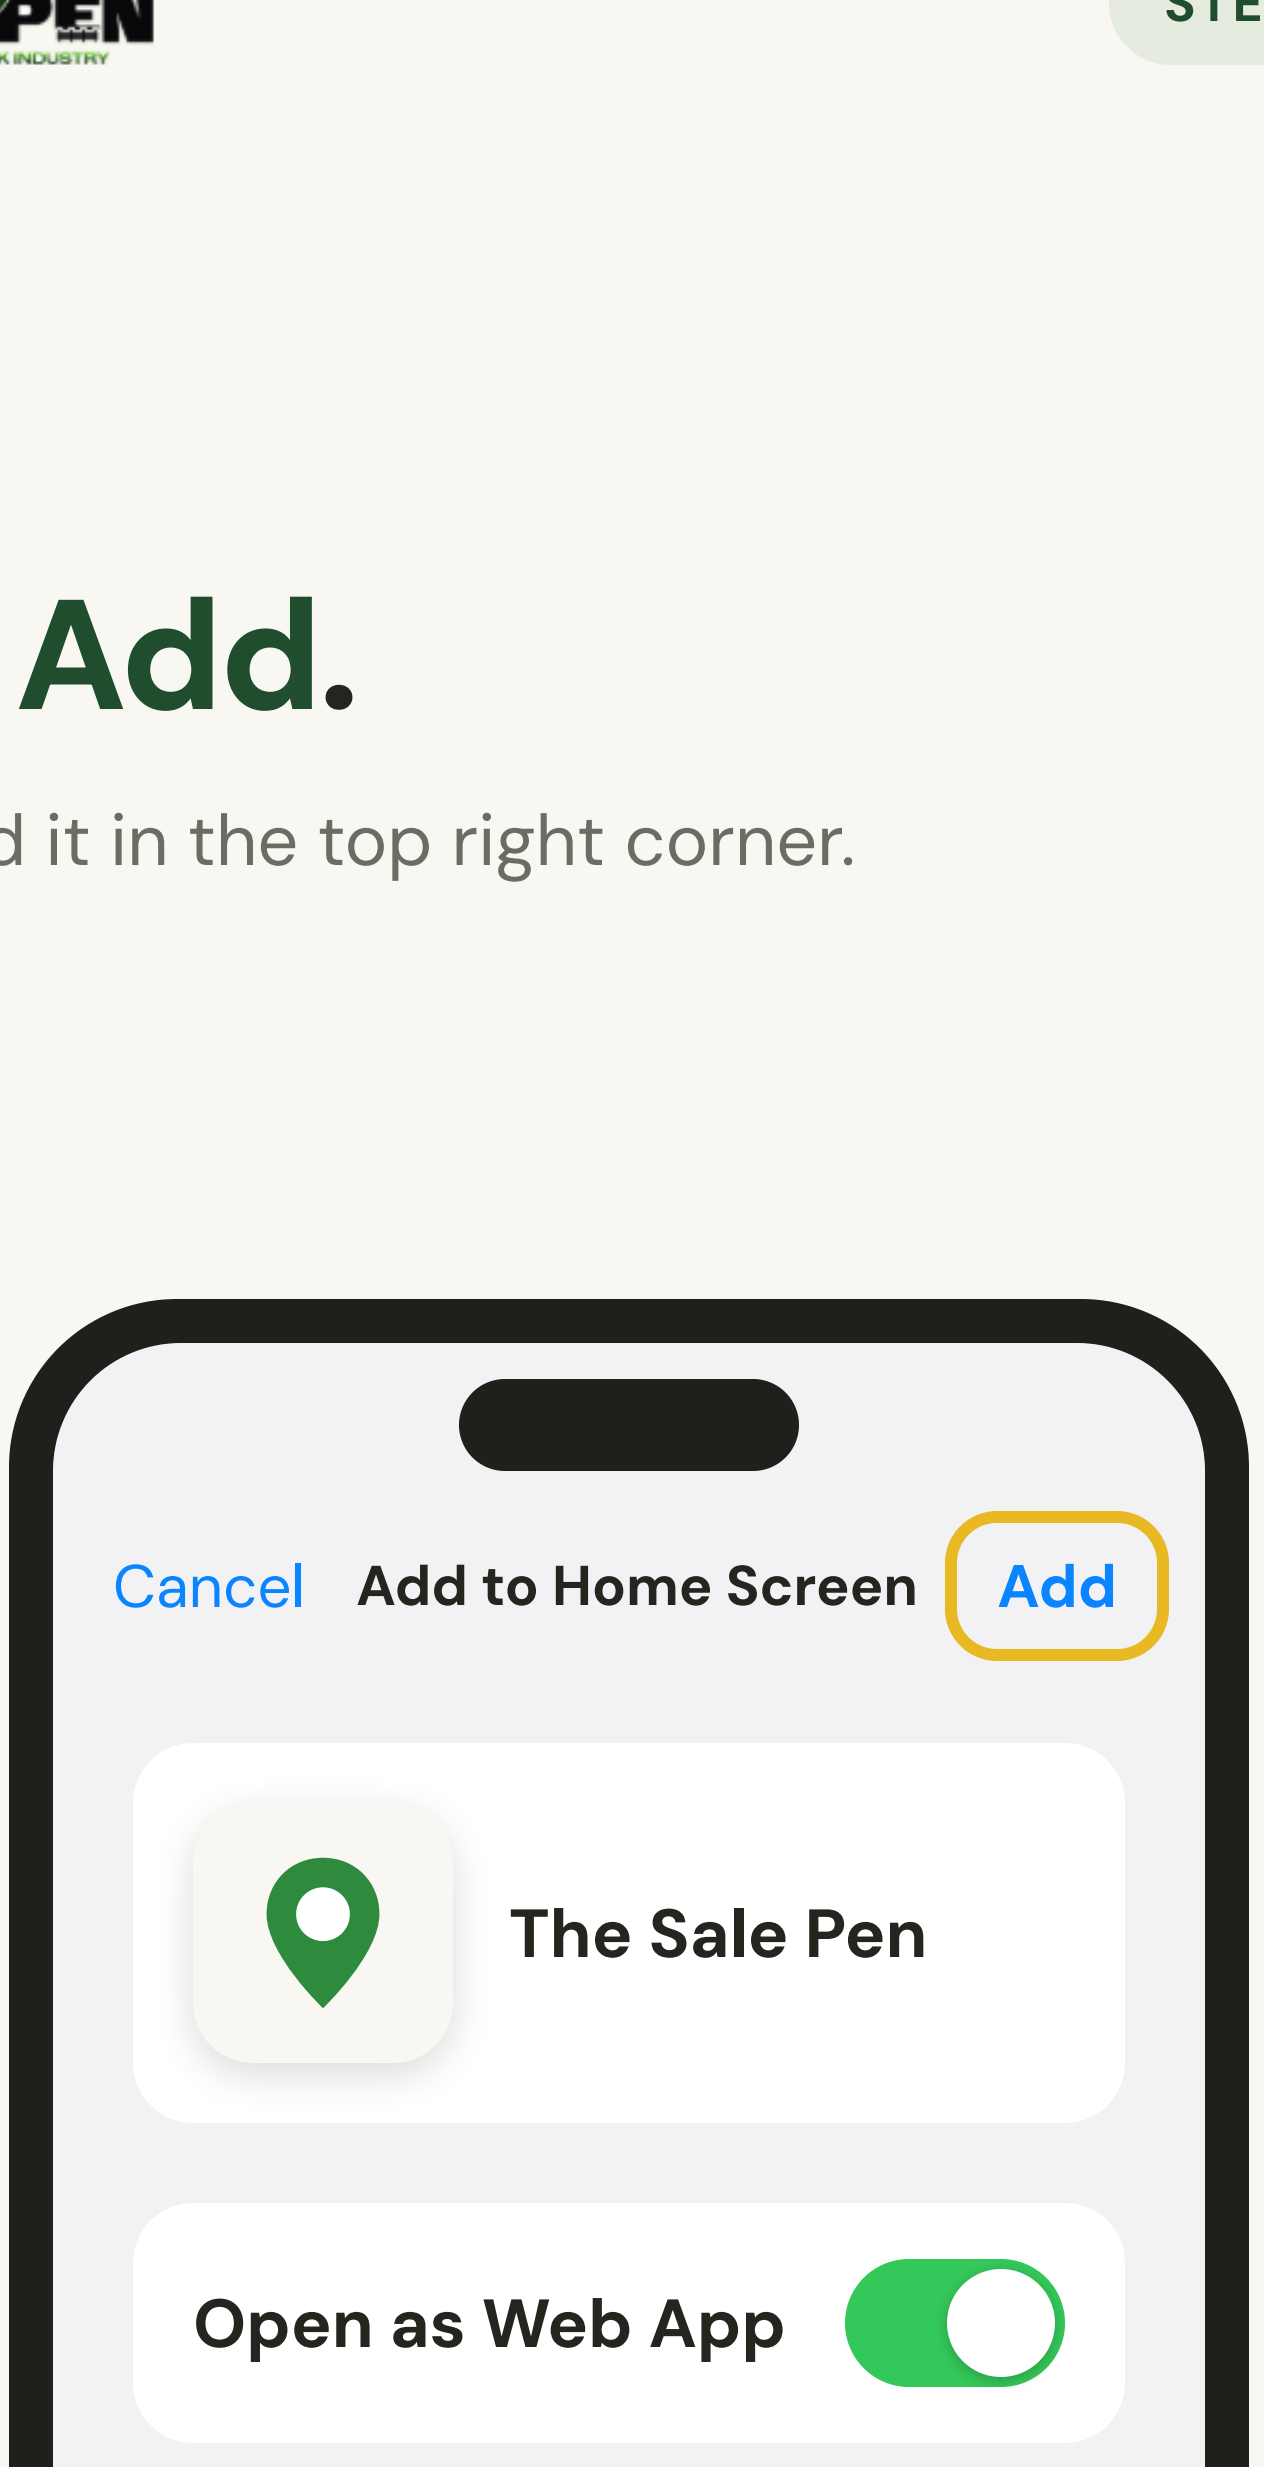

THE SALE PEN
UNITING THE LIVESTOCK INDUSTRY

STEP 7 OF 7

7

Tap Add.

You'll find it in the top right corner.

ALL SET

You're all set!

The Sale Pen now lives on your Home Screen. Tap the icon to browse listings, follow show results, and explore the Genetics Directory.

Tip: You can move the icon or put it in a folder, just like any other app.
